### International Technical Officials

The International Technical Officials (ITOs) will be appointed by the Asian Rowing Federation.

## General Introduction of Korea, Chungju:

Representing a green city in Korea, surrounded by a clean lake, river and mountains, a city with rich cultural heritage and diverse tourist resources! Chungju, the dream city that will open a bright future for dynamic water sports, located at the center of Korea and North East Asia.

Chungju is center of the Korean Peninsula which is in proximity to China and Japan and lies in the heart of North East Asia. The city is equipped with great transportation infrastructure, ensuring easy and convenient access not only to mega cities like Seoul and Busan but also to each and every region of the country. Green city with the most suitable weather conditions for rowing with an average annual temperature of 11.5°C, four vivid seasons of a continental climate, 1,065.3mm average annual precipitation and no natural disasters such as typhoon, flood and heavy snow, Chungju is a suitable arena for water sports such as rowing.

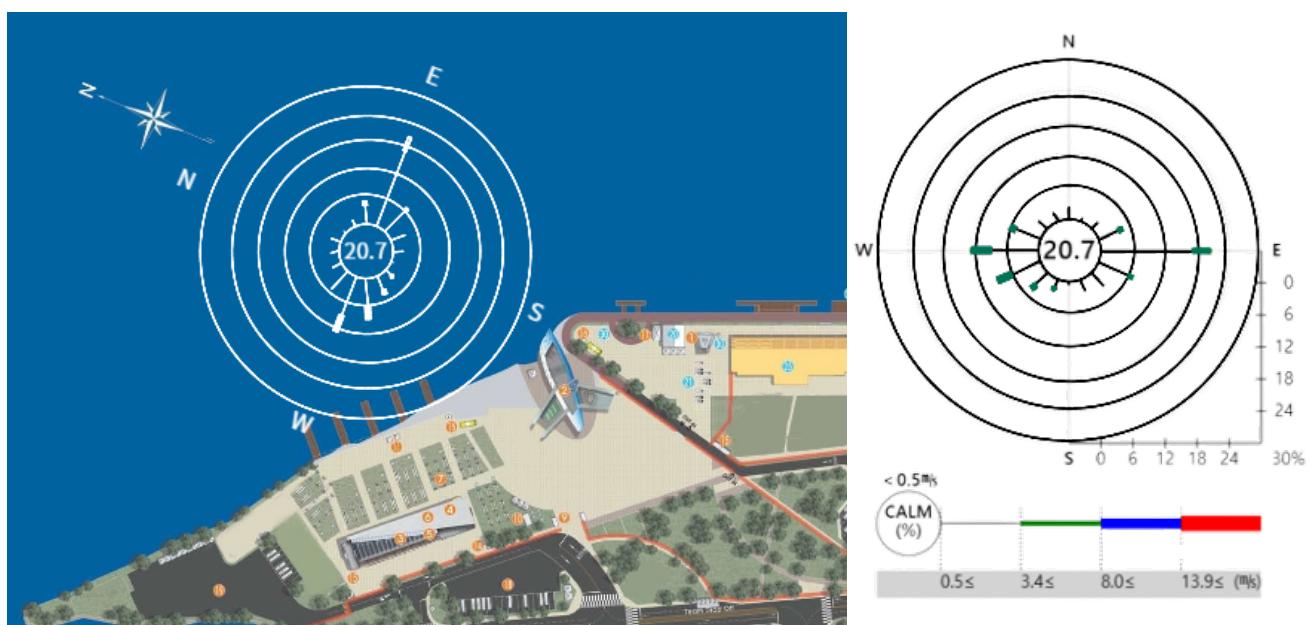

### The world-class green regatta, Tangeum Lake International Rowing Regatta!

Tangeum Lake International Rowing Regatta Course is a lake naturally-formed by Chungju Dam and boasts great scenery attributable to its location in-between low hill with dense woods and water bodies.

Tangeum Lake International Rowing Regatta Course is a dream regatta venue, satisfying WR's requirements for a Category A course in all criteria such as course length, water width and depth as well as water quality. In addition, it is 15 minutes away from the downtown of Chungju so cultural facilities are conveniently available.
